

Product Data Sheet

Iron Horse Pipe Stands

Iron Horse Pipe Stands

Iron Horse Pipe Supports have been designed specifically to support gas and oil pipe from 6" diameter up to 12" diameter. These pipe stands are rugged, long lasting, light and very practical. MCS has designed their line of pipe stands to support the weight of the pipes they hold without buckling under heavy weight. Designed to cradle pipe on your worksite, these pipe stands have convenient handling holes for quick and easy relocation and are easily stackable for storage and transport. Available in standard colours of orange and yellow, custom colours and company identification are available upon request, and are highly recommended to mark different runs of pipe, and pipes going to different locations.
